OTG Backup

Connect any USB device using OTG port.

Easy OTG Backup

OTG BACKUP
With OTG port and USB cable you can directly backup data from any USB devices.

• PRODUCT INFO

NEXTO ND-2700
SATA HDD 지원
 Support Internal SATA HDD
 and eSATA PC Interface.

Internal SATA HDD

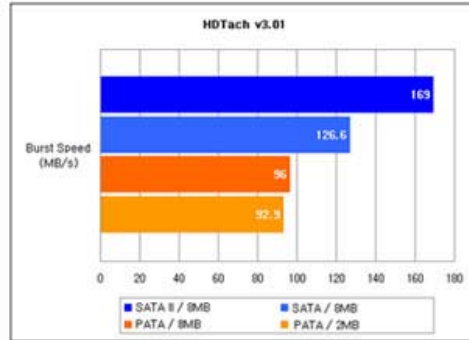

Built-in High Speed SATA Interface with the max speed of 300MB/S.

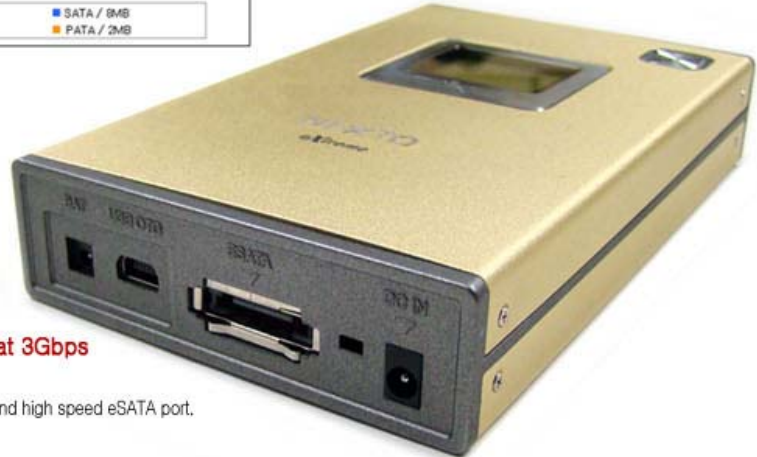

SATA HDD / eSATA Interface

High Speed SATA HDD

As compared with PATA HDD, SATA HDD is more stable and has less power consumption. The data transfer speed of SATA HDD is faster more than 2 times.

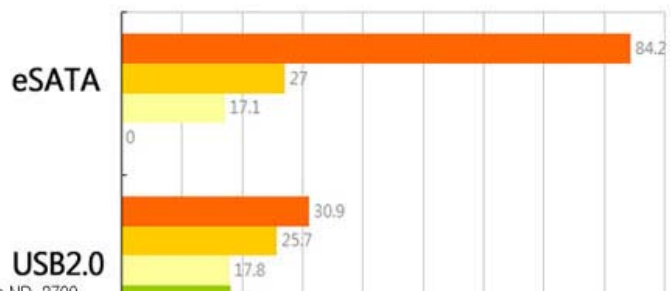

PATA HDD has the maximum speed of 133MB/S and has the 80 line cable and 40 pin connector. SATA HDD has the maximum speed of 150MB/S(SATA1) and 300MB/S(SATA2).

eSATA PC Interface at 3Gbps

With PC connection, ND-2700 Supports USB2.0 and high speed eSATA port.

eSATA VS USB2.0

eSATA Interface is much faster than 480Mbps of USB 2.0 and 400Mbps of IEEE1394. Its speed is 3Gbps! You can use the powerful performance with ND-2700.

● PRODUCT INFO

NEXTO ND-2700
Various Functions

Backup, Verify, HDD Check, Browse, Format and so on

Support big HDD more than 128GB (max 2000GB)
 NEXTO eXtreme supports 2.5" SATA HDD with the maximum capacity of 2000GB.

Diagnostic Functions for HDD and Memory Card
 NEXTO eXtreme is more reliable than any other backup device with the bad sector check function.

H/W Data Verify Function
 This function enables fast and accurate verification of backedup data. It only takes 80 seconds to verify 1GB data.

LCD Backlight for Dark Environment
 The LCD of NEXTO eXtreme has backlight feature so you can use NEXTO eXtreme in dark environment.

Auto Detection
 NEXTO eXtreme automatically detect the type of the inserted memory card.

Auto Power Off
 NEXTO eXtreme will turn itself off after 30 seconds of no operation.

Last Backup Result Confirmation
 NEXTO eXtreme tells you the result of last backup when you turn it on. So it prevent you from losing valuable data.
